The Anderson-inspired Timberline is a striking “hand-scraped” laminates that draws it’s inspiration from Anderson’s gorgeous hand-hewn hardwoods.

Unique texture-light, overall hand-scraping looks natural and upscale.

- An Anderson visual: A beautiful, casual hickory collection-rustic styles with cross-sawn marks, worm holes, and swirling heartwood.
- Realistic feel: 12mm thickness creates a floor that “walks” more like hardwood.
